3rd place game	Game 26 Winner	v	Game 25 Winner	9:30	Field A1
Championship	Game 24 Winner	v	Game 23 Winner	11:00	Albert

Tournament Format: The 12u tournament will consist of 3 pool play games (randomly selected), except for one team. In this case, the BCS Lions were randomly selected by an online match-up generator as the team to have 4 pool play games. Moreover, after pool play, there will be a traditional “win and advance” bracket to determine the champions along with a consolation bracket to determine the 3rd place team. Below the schedule will be an example tournament bracket for a better visual representation. Please note: as one team will play an extra game, overall win percentage will be the first determining factor for playoff seedings. For example, if BCS goes 3-1, then they will be seeded ahead of 2-1 teams. As explained in the tournament rules document, the next seeding factors will be: 2) head-to-head, 3) cumulative run differential, 4) cumulative runs allowed
